

Headline: Warm Co New and Improved Display Warmer.

Warm Co reveals its new two-Door Mini Display Warmer for the food service operations.

Warm Co is proud to introduce it's new product at this year's National Restaurant Association Show at Booth 222. The new display warmer comes with three shelves, Thermostatic controls, tempered glass exterior and made out of an aluminum/stainless steel material. This new product will help the food industry preserve food's fresh taste and help maintain the correct texture. Show this email to receive 25% off this wonder full product for the next six months.
